WORK EXPERIENCE

Project HSE Manager

BUTEC, Doha, Qatar Nov 2020 - Present

Project: Development of Doha Air Base

- Principal HSE contact: communicates performance to stakeholders and develops policies and procedures aligned with legal requirements, industry standards and international norms.
- Plans activities with project teams to identify, assess and control hazards; recruits, supervises and mentors HSE team leaders and officers.
- Develops emergency response and crisis management strategies; leads loss-event investigations, root cause analysis and corrective measures.
- Designs and conducts organisation-wide training; sets SMART objectives and reports performance metrics.

Health, Safety, Environment and Welfare Manager

STRABAG-ZÜBLIN, Doha, Qatar Jan 2018 - Nov 2020

Head of the business unit across seven projects, reporting to the Managing Director and Corporate HSE Director. Portfolio: Doha South Terminal Pumping Station and Odour Control Facility (ASHGHAL); Al Shaqab Equine Veterinary Medical Centre, SIDRA Medical Research Centre, North Site Utility Extension (Qatar Foundation); Energy City Qatar; BEEMA Office Building, Lusail; Muntazah Commercial Residences.

- Recruited, managed and mentored HSE, environmental, medical and training personnel; developed project HSE systems, HSE plans, emergency response and traffic management plans.
- Conducted site visits and compliance audits, directed incident investigations, and produced monthly and annual board reports.
- Implemented Qatar Foundation Worker Welfare Standards across Qatar Foundation and ASHGHAL projects: accommodation, site facilities, employment conditions and ethical recruitment.
- Supported Business Development and Pre-Construction teams with prequalification questionnaires, tender bids and construction planning.

Project HSSE and Welfare Manager

STRABAG-ZÜBLIN, Doha, Qatar Jan 2017 - Aug 2018

Project: Design and Build of Al Shaqab Equine Veterinary Medical Centre (Qatar Foundation)

- Led occupational health, safety, environment and worker welfare; implemented policies and procedures and monitored compliance with regulations and legislation.
- Coordinated with construction, procurement and planning; supported method statements and risk assessments; developed and delivered project-specific training.
- Managed the emergency response team; investigated incidents and near misses and implemented corrective actions.
- Verified welfare standards on site and at worker accommodation; chaired safety committees; conducted client liaison, internal and subcontractor audits.

Deputy HSE Manager

STRABAG-ZÜBLIN, Doha, Qatar Sep 2015 - Jan 2017

Project: Design and Build of Inner Doha Re-sewerage Implementation Strategy, IDRIS MTS II

- Provided shift support to the HSE Manager, supervising 10 HSE Officers and Inspectors plus environmental, medical and training staff; primary HSE contact for the supervisory consultant.
- Supported development and implementation of the project HSE system, joint inspections with consultant teams and action closeout.
- Delivered toolbox talks and training; provided weekly and monthly metrics; monitored compliance with BS 6164; acted as shift emergency coordinator.

HSE Team Leader

STRABAG, Brunei Feb 2015 - May 2015

COGEN II Power Station Expansion, Brunei Shell Petroleum

- Led 11 HSE and Environmental Officers: assigned duties, oversaw daily inspections and preventive actions, and monitored compliance with regulations and client standards.
- Reported safety statistics to the divisional head; chaired safety meetings; developed a frontline supervisory training package.

HSE Officer

Total Safety / JACOBS, Morocco Mar 2012 - Dec 2014

Two Di-Ammonium Phosphate production units: civil works, steel erection, piping, lifting, electrical work, testing and commissioning; ODI platforms (Phosphoric Acid, DAP and Sulfuric Acid plant units)

- Reviewed contractor HSE systems, method statements and risk assessments; developed project training and training matrices.
- Monitored legal compliance through inspections, audits and surveys; analysed HSE statistics; investigated accidents.

HSE Officer
BONATTI SPA, Algeria Jul 2011 - Mar 2012

OMN and E2A water injection and reinjection stations (SONATRACH); In Salah Gas pipelines (Petrofac / British Petroleum / Statoil)

- Monitored safe work systems and permits; reviewed construction and commissioning risk assessments; inspected site and camp facilities.
- Took part in client and subcontractor audits; delivered inductions and toolbox talks; investigated near misses; inspected cranes, MEWPs, forklifts, lifting accessories and scaffolding.

Administrative Assistant
BONATTI SPA, Algeria Jul 2010 - Jul 2011
